

# Datasheet Actuation Module: *Curve*® plugged 3910M

- Active length: **39 mm**
- Module size: **59 mm x 10 mm x 2.5 mm**
- Bending: **medium (M)**
- Module weight: **1.6 g**

- Example hosting structure: stainless steel 0.45 mm
- Load range with minor reduction of deflection and high cycling stability (>200 000)

at module edge:	110 g
at 25 mm:	67 g
at 50 mm:	50 g

- Operating mode: **plugged**
- Thermal activation by: resistive heating
- Electronic circuit: all wires in series
- Resistivity: 0.4 Ohm
- Full Activation (DC): e.g. 3 A for 15 s / 4 A for 4

All values are only estimations!

## Customized high performance actuation modules by ...

### ... high-tech solutions

- reliable load transfer
- proven cycle stability
- injection molded frame elements
- special SMA material specifications
- high temperature FRP
- self-sensing capability

actuator test bench

deflection

### ... customized mechanical fixation

- adhesive films
- liquid adhesives
- bolts, rivets, screws
- plug-on

### ... individual design

- substrate (metals, polymers)
- size
- deflection
- load / cycles
- wire material / temperatures
- electrical resistance

FEM analysis

### ... various electrical connection

- crimping
- soldering
- plugging in
- welding
